***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:

In independent claims 1 and 11 directed towards a semiconductor integrated circuit, the following features taken in combination with the remaining limitations in the independent claims are not found in and/or are not obvious in view of the prior art of record, where the examiner interprets the language "access control means" and "access controller" as referring to the combination of the access control unit, selector and arbitration circuit as disclosed in the specification at paragraphs [0027] and [0030] and as showing in the drawings at Fig. 2.

**Claim 1**, *"a third bus for directly connecting the local memory to the access control means"*.

**Claim 11**, *"a third bus for directly connecting the local memory to the access controller"*.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
